Santa Rosa, California 95403

**Subject:      Monitoring Well Abandonment Report  
                 150 South Main Street, Willits, California  
                 NCRWQCB Case No. 1TMC537**

Dear Ms. Stone:

This letter presents the results of monitoring well abandonment procedures performed at the subject site. The work was performed in accordance with procedures outlined in our April 28, 2005 Work Plan - Monitoring Well Abandonment, and complied with directives outlined in a May 3, 2005 letter from Ms. Colleen Stone of the North Coast Regional Water Quality Control Board (NCRWQCB).

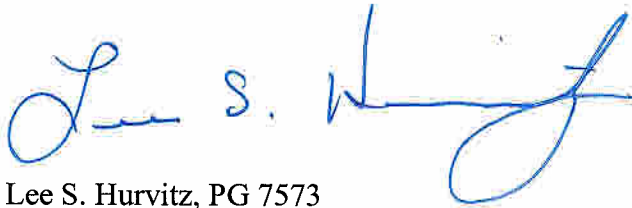

In accordance with site closure requirements, Trans Tech Consultants and Clear Heart Drilling of Santa Rosa, California performed the monitoring well abandonment procedures at the subject site on June 10, 2005. Clear Heart Drilling is a C-57 licensed contractor and the wells were abandoned in accordance with California Department of Water Resources California Well Standards (Bulletin 74-90). A total of three monitoring wells (MW-1 through MW-3) were abandoned. The locations of the former monitoring wells are shown on the Site Plan, Plate 2. The well seals and sand packs were over drilled using hollow stem auger equipment. The PVC well casings were then removed from the hole and the holes were then backfilled with a cement grout and capped with bentonite chips and concrete. Mr. Pete Lowman of Mendocino County Environmental Health division was onsite to observe well abandonment procedures. The metal well boxes and PVC casings were separated from the drill cuttings and disposed of in onsite garbage bins. The drill cuttings and the auger rinse water were contained in separate 55-gallon Department of Transportation (DOT) - approved drums and will be properly disposed of at appropriate facilities. The disposal documentation for the soil cuttings and rinse water will be provided after disposal has occurred.

We appreciate the opportunity to have been of service to you and we trust that this provides the information you require at this time. If you have any questions or require any additional information, please feel free to contact us at (707) 575-8622 or [www.trantechconsultants.com](http://www.trantechconsultants.com).

Sincerely,  
TRANS TECH CONSULTANTS
